WOUNDCON-2018

Warm greetings from Indian Society of Wound Management (ISWM). It gives us immense pleasure to invite you to the 20th Annual Conference of Indian Society of Wound Management **WOUNDCON-2018**.

Wound care is crucial for early recovery, also to prevent recurrence and thus maintain overall wellbeing of the patient. Noting this significance, Wound Management has evolved as a specialty. Anticipating this, the Indian Society of Wound Management (ISWM) was established to bring forth a common platform for General surgeons, Plastic surgeons, Oncosurgeons, Dermatologists, Orthopedists, and Surgical Specialists of Ayurveda for better wound care. Developing and adopting an evidence based treatment protocol for wound management is a requisite of the present. Hence this conference gives us an opportunity to exchange ideas of experts and put forth different treatment strategies and modalities for a better patient care.

This year, it's our pleasure to organize this event at Sri Dharmasthala Manjunatheshwara College of Ayurveda & Hospital (SDMCA&H), Hassan near Bengaluru, Karnataka, one of the premier institutions of Ayurveda in India. Established under the aegis of Sri Dharmasthala Manjunatheshwara (SDM) Educational Society, Ujire and the leadership of Padma Vibhushan Dr. D. Veerendra Heggade, an educationalist and a social reformer, SDMCollege of Ayurveda & Hospital, Hassan is an exemplary college providing Ayurveda knowledge for past 25 years. The college provides quality education with innovative practical skills to knowledge seekers across the globe. The Institution is a perfect venue for strengthening one's roots and progress in research. It's our pleasure to invite you to the **WOUNDCON-2018** on March 16, 17 & 18th, 2018 (Friday, Saturday & Sunday).
